

Lee Enterprises reports results for second fiscal quarter

April 17, 2012

NEWS RELEASE

DAVENPORT, Iowa (April 17, 2012) -- Lee Enterprises, Incorporated (NYSE: LEE) reported today for its second fiscal quarter ended March 25, 2012, a loss of 54 cents per diluted common share, compared with a loss of 3 cents a year ago. Excluding refinancing and reorganization costs along with other unusual matters, adjusted loss per diluted common share⁽¹⁾ was 3 cents, compared with a loss of 2 cents a year ago. Operating cash flow⁽²⁾ increased 9.1% to \$32.1 million.

Mary Junck, chairman and chief executive officer said: "Year over year revenue trends improved modestly in the March quarter, in line with previous guidance. Digital advertising revenue again exhibited strong growth, up nearly 10%, the ninth consecutive quarter of growth in this category. At the same time, we continue to transform our business, which allowed us to reduce cash costs 6.1% in the March quarter, exceeding the high end of our forecast. As a result, both operating cash flow and operating income increased."

Junck added: "We continue moving rapidly forward on both digital and print initiatives. Just in the last few weeks, we agreed to participate in a venture to bring advertising preprints into the digital marketplace. We also rolled out a major upgrade of mobile applications, improving the delivery of news and advertising in all 52 of our daily newspaper markets. And our pay for digital content initiative is on track to have most enterprises operating paid sites by the end of this year, with 10 more launched this summer. We expect that fast pace to continue for some time as our business evolves in the digital age."

SECOND QUARTER OPERATING RESULTS

Operating revenue for the quarter totaled \$172.3 million, a decrease of 3.6% compared with a year ago. Combined print and digital advertising revenue decreased 5.3% to \$117.5 million, with retail advertising down 3.5%, classified down 7.1% and national down 9.7%. Combined print and digital classified employment revenue decreased 0.3%, while automotive decreased 3.9%, real estate decreased 12.2% and other classified decreased 11.5%. Digital advertising revenue on a stand-alone basis increased 9.9% to \$15.7 million. Print revenue on a stand-alone basis decreased 7.3%. Circulation revenue increased 0.1%.

Lee's websites and mobile and tablet products attracted 25.9 million unique visitors in the month of March 2012, an increase of 3.7% from a year ago. Mobile page views in March increased 174% to 43.9 million.

Operating expenses, excluding depreciation, amortization and unusual matters, decreased 6.2%. Compensation decreased 5.2%, with the average number of full-time equivalent employees down 7.5%. Newsprint and ink expense decreased 11.9%, a result of a reduction in newsprint volume of 9.5%. Other operating expenses decreased 6.0%. Excluding a 53rd week of business activity, 2012 fiscal year operating expenses, excluding depreciation, amortization and unusual matters are expected to decrease 3.5-4.5%⁽³⁾ from the comparative 2011 level, in line with previous guidance.

Operating cash flow increased 9.1% from a year ago to \$32.1 million. Operating cash flow margin⁽²⁾ increased to 18.6% from 16.5% a year ago. Including equity in earnings of associated companies, depreciation and amortization, as well as unusual matters in both years, the company recognized operating income of \$16.5 million, compared with \$14.1 million a year ago. Non-operating expenses, primarily interest expense and debt financing costs, increased 37.5%, due to higher interest rates. The company recognized \$36.6 million of reorganization costs in the quarter, resulting in a loss attributable to Lee Enterprises, Incorporated of \$26.6 million, compared with a loss of \$1.5 million a year ago. Approximately \$23.2 million of refinancing costs will be amortized over the term of the related debt as a yield adjustment.

ADJUSTED EARNINGS AND EPS FOR THE QUARTER

Unusual matters affecting year-over-year comparisons include debt financing costs in both years, reorganization costs in the current year and a non-cash curtailment gain in the prior year. The following table summarizes the impact from unusual matters on loss attributable to Lee Enterprises, Incorporated and loss per diluted common share. Per share amounts may not add due to rounding.

NOTES

- (1) Adjusted net income (loss) and adjusted earnings (loss) per common share, which are defined as income (loss) attributable to Lee Enterprises, Incorporated and earnings (loss) per common share adjusted to exclude both unusual matters and those of a substantially non-recurring nature, are non-GAAP (Generally Accepted Accounting Principles) financial measures. Reconciliations of adjusted net income (loss) and adjusted earnings (loss) per common share to income attributable to Lee Enterprises, Incorporated, and earnings (loss) per common share are included in tables accompanying this release.
No non-GAAP financial measure should be considered as a substitute for any related GAAP financial measure. However, the company believes the use of non-GAAP financial measures provides meaningful supplemental information with which to evaluate its financial performance, or assist in forecasting and analyzing future periods. The company also believes such non-GAAP financial measures are alternative indicators of performance used by investors, lenders, rating agencies and financial analysts to estimate the value of a publishing business and its ability to meet debt service requirements.
- (2) Operating cash flow, which is defined as operating income before depreciation, amortization, curtailment gains and equity in earnings of associated companies, and operating cash flow margin (operating cash flow divided by operating revenue) are non-GAAP financial measures. See (1) above. Reconciliations of operating cash flow to operating income, the most directly comparable GAAP measure, are included in a table accompanying this release.
- (3) Including the 53rd week of operations in 2012, such expenses are expected to decrease 2.5-3.5%.
- (4) Free cash flow, which is defined as operating income, plus depreciation and amortization, impairment charges, stock compensation, financial income and cash income tax benefit, minus curtailment gains, financial expense (exclusive of non-cash amortization and accretion), cash income taxes, capital expenditures and minority interest, is a non-GAAP financial measure. See (1) above. Reconciliations of free cash flow to operating income, the most directly comparable GAAP measure, are included in a table accompanying this release. Changes in working capital are excluded.
- (5) Certain amounts as previously reported have been reclassified to conform with the current period presentation. The prior period has been adjusted for comparative purposes, and the reclassifications have no impact on earnings.
