LEE ENTERPRISES, INCORPORATED
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1 BASIS OF PRESENTATION

The Consolidated Financial Statements included herein are unaudited. In the opinion of management, these financial statements contain all adjustments (consisting of only normal recurring items) necessary to present fairly the financial position of Lee Enterprises, Incorporated and subsidiaries (the Company) as of March 31, 2007 and its results of operations and cash flows for the periods presented. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company's 2006 Annual Report on Form 10-K.

Because of acquisitions, divestitures, seasonal and other factors, the results of operations for the three months and six months ended March 31, 2007 are not necessarily indicative of the results to be expected for the full year.

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned, except for its 50% interest in Madison Newspapers, Inc. (MNI), 83% interest in INN Partners, L.C. (INN), 95% interest in St. Louis Post-Dispatch LLC (PD LLC) and STL Distribution Services LLC (DS LLC), and 50% interest in TNI Partners (TNI).

Certain amounts as previously reported have been reclassified to conform with the current period presentation.

References to 2007, 2006, 2005 and the like mean the fiscal year ended September 30.

2 ACQUISITIONS AND DIVESTITURES

All acquisitions are accounted for as purchases and, accordingly, the results of operations since the respective dates of acquisition are included in the Consolidated Financial Statements.

In 2007, the Company purchased a minority interest in an online employment application from PowerOne Media, LLC (PowerOne), in which the Company and MNI own minority interests, at a cost of \$118,000.

In 2006, the Company purchased a web-hosting business and national advertising network at a cost of \$3,800,000 from PowerOne and purchased a minority interest in INN in exchange for the forgiveness of certain notes receivable with a carrying value of \$75,000. In 2006, the Company also purchased a weekly newspaper at a cost of \$412,000. These acquisitions did not have a material effect on the Consolidated Financial Statements.

In September 2006, the Company sold several stand-alone publishing and commercial printing operations in Seattle and Spokane, Washington, and Portland, Oregon, a twice weekly newspaper in Oregon, and a daily newspaper in Rhinelander, Wisconsin. The Company received \$33,198,000 in September 2006 and recorded a receivable of \$20,700,000, which was collected in 2007. In October 2006, the Company sold a weekly newspaper in Oregon. The transactions resulted in an after tax loss of \$5,204,000, which was recorded in discontinued operations in 2006.

Results of discontinued operations consist of the following:

5 DEBT

Credit Agreement

In 2006, the Company entered into an amended and restated credit agreement (Credit Agreement) with a syndicate of financial institutions. The Credit Agreement provides for aggregate borrowings of up to \$1,435,000,000 and consists of a \$950,000,000 A Term Loan, \$35,000,000 B Term Loan and \$450,000,000 revolving credit facility. The Credit Agreement also provides the Company with the right, with the consent of the administrative agent, to request at certain times prior to June 2012 that one or more lenders provide incremental term loan commitments of up to \$500,000,000, subject to certain requirements being satisfied at the time of the request. The Credit Agreement matures in June 2012 and amends and replaces a \$1,550,000,000 credit agreement (the Old Credit Agreement) consummated in 2005. Interest rate margins under the Credit Agreement are generally lower than under the Old Credit Agreement. Other conditions of the Credit Agreement are substantially the same as the Old Credit Agreement.

The Credit Agreement is fully and unconditionally guaranteed on a joint and several basis by substantially all of the Company's existing and future, direct and indirect subsidiaries in which the Company holds a direct or indirect interest of more than 50%; provided however, that Pulitzer Inc. (Pulitzer), a wholly-owned subsidiary of the Company, and its subsidiaries will not be required to enter into such guaranty for so long as their doing so would violate the terms of the Pulitzer Notes described more fully below. The Credit Agreement is secured by first priority security interests in the stock and other equity interests owned by the Company and each guarantor in their respective subsidiaries. Both the guaranties and the collateral that secures them will be released in their entirety at such time as the Company achieves a total leverage ratio of 4.25:1 for two consecutive quarterly periods.

Debt under the A Term Loan and revolving credit facility bear interest, at the Company's option, at either a base rate or an adjusted Eurodollar rate (LIBOR), plus an applicable margin. The base rate for the facility is the greater of the prime lending rate of Deutsche Bank Trust Company Americas at such time and 0.5% in excess of the overnight federal funds rate at such time. The margin applicable is a percentage determined according to the following: For revolving loans and A Term Loans, maintained as base rate loans: 0%, and maintained as Eurodollar loans, 0.625% to 1% (0.75% at March 31, 2007) depending, in each instance, upon the Company's leverage ratio at such time. All loans at March 31, 2007 are Eurodollar-based.

The Company may voluntarily prepay principal amounts outstanding or reduce commitments under the Credit Agreement at any time, in whole or in part, without premium or penalty, upon proper notice and subject to certain limitations as to minimum amounts of prepayments. The Company is required to repay principal amounts, on a

[Table of Contents](#)

quarterly basis until maturity, under the A Term Loan beginning in September 2006. In addition to the scheduled payments, the Company is required to make mandatory prepayments under the A Term Loan under certain other conditions. The Company repaid the B Term Loan in full in 2006.

The Credit Agreement contains customary affirmative and negative covenants for financing of its type. These financial covenants include a maximum total leverage ratio (5.75:1 at March 31, 2007) and minimum interest expense coverage ratio of 2.5:1. None of the covenants included in the Credit Agreement is considered by the Company to be restrictive to normal operations or historical amounts of stockholder dividends. At March 31, 2007, the Company is in compliance with such covenants.

The Credit Agreement requires the Company to apply the net proceeds from asset sales to repayment of the A Term Loan to the extent such proceeds exceed the amount used to purchase assets (other than inventory and working capital) within one year of the asset sales. The Company expects repayments in 2007 to meet or exceed required repayments related to its 2006 sales transactions.

Pulitzer Notes

In conjunction with its formation, PD LLC borrowed \$306,000,000 (Pulitzer Notes) from a group of institutional lenders (the Lenders). The aggregate principal amount of the Pulitzer Notes is payable in April 2009 and bears interest at an annual rate of 8.05%. The Pulitzer Notes are guaranteed by Pulitzer pursuant to a Guaranty Agreement dated May 1, 2000 (the Guaranty Agreement) with the Lenders. In turn, pursuant to an Indemnity Agreement dated May 1, 2000 (the Indemnity Agreement) between The Herald Company, Inc. (Herald Inc.) and Pulitzer, Herald Inc. agreed to indemnify Pulitzer for any payments that Pulitzer may make under the Guaranty Agreement. In December 2006, Herald Inc. assigned its assets and liabilities to The Herald Publishing Company LLC (Herald).

The terms of the Pulitzer Notes, as amended, contain certain covenants and conditions including the maintenance, by Pulitzer, of EBITDA, as defined in the Guaranty Agreement, minimum net worth and limitations on the incurrence of other debt. At March 31, 2007, the Company is in compliance with such covenants. In addition, the Pulitzer Notes and the Operating Agreement with Herald (Operating Agreement) require that PD LLC maintain a minimum reserve balance consisting of cash and investments in U.S. government securities, totaling approximately \$103,560,000 at March 31, 2007. The Pulitzer Notes and the Operating Agreement provide for a \$3,750,000 quarterly increase in the minimum reserve balance through May 1, 2010, when the amount will total \$150,000,000. See Note 11.

The purchase price allocation of Pulitzer resulted in an increase in the value of the Pulitzer Notes in the amount of \$31,512,000, which is recorded as debt in the Consolidated Balance Sheets. This amount will be accreted over the remaining life of the Pulitzer Notes, until April 2009, as a reduction in interest expense using the interest method. This accretion will not increase the principal amount due, or reduce the amount of interest to be paid, to the Lenders.

Debt consists of the following:

<i>(Thousands)</i>	March 31 2007	September 30 2006	Interest Rate(s) March 31, 2007

6 INTEREST RATE EXCHANGE AGREEMENTS

In 2005, the Company executed interest rate swaps in the notional amount of \$350,000,000 with a forward starting date of November 30, 2005. The interest rate swaps have terms of two to five years, carry interest rates from 4.2% to 4.4% (plus the applicable LIBOR margin) and effectively fix the Company's interest rate on debt in the amounts, and for the time periods, of such instruments. At March 31, 2007 and September 30, 2006, the Company recorded an asset of \$3,609,000 and \$5,234,000, respectively, related to the fair value of such instruments. The change in this fair value is recorded in other comprehensive income, net of income taxes.

At March 31, 2007, \$1,042,000 of the asset amount noted above is related to interest rate swaps with a notional amount of \$150,000,000 that expire in November 2007.

At March 31, 2007, after consideration of the interest rate swaps described above, approximately 55% of the principal amount of the Company's debt is subject to floating interest rates.

7 PENSION, POSTRETIREMENT AND POSTEMPLOYMENT DEFINED BENEFIT PLANS

The Company and its subsidiaries have several noncontributory defined benefit pension plans that together cover a significant number of *St. Louis Post-Dispatch* and selected other employees. Benefits under the plans are generally based on salary and years of service. The Company's liability and related expense for benefits under the plans are recorded over the service period of active employees based upon annual actuarial calculations. Plan funding strategies are influenced by tax regulations. Plan assets consist primarily of domestic and foreign corporate equity securities, government and corporate bonds, and cash.

In addition, the Company provides retiree medical and life insurance benefits under postretirement plans at several of its operating locations. The level and adjustment of participant contributions vary depending on the specific plan. In addition, PD LLC provides postemployment disability benefits to certain employee groups prior to retirement at the *St. Louis Post-Dispatch*. The Company's liability and related expense for benefits under the postretirement plans are recorded over the service period of active employees based upon annual actuarial calculations. The Company accrues postemployment disability benefits when it becomes probable that such benefits will be paid and when sufficient information exists to make reasonable estimates of the amounts to be paid.

The Company uses a June 30 measurement date for all of its pension and postretirement medical plan obligations.

Based on its forecast at March 31, 2007, the Company expects to contribute \$130,000 to its pension trust and \$3,000,000 to its postretirement medical plans in 2007.

2007 Curtailments

In January 2007, defined pension benefits for certain of the Company's employees were frozen at then current levels. As a result, the Company recognized a curtailment gain of \$1,791,000, and also recognized the Company's 50% share of the \$2,074,000 gain recognized by TNI. See Note 3.

In January 2007, defined postretirement medical benefits for certain of the Company's employees were modified. As a result, the Company recognized a curtailment gain of \$1,940,000.

11 COMMITMENTS AND CONTINGENT LIABILITIES

Capital Commitments

At March 31, 2007, the Company had construction and equipment purchase commitments totaling approximately \$9,570,000.

St. Louis Post-Dispatch Early Retirement Program

In 2006, the *St. Louis Post-Dispatch* concluded an offering of early retirement incentives that resulted in an adjustment of staffing levels. 130 employees volunteered to take advantage of the offer, which included enhanced pension and insurance benefits and lump sum cash payments based on continuous service. The cost totaled \$17,778,000 before income tax benefit, with \$9,124,000 recognized in 2005, \$8,373,000 recognized in the three months ended December 31, 2005 and \$281,000 recognized in the three months ended March 31, 2006. Approximately \$7,000,000 of the cost represented cash payments made, with the remainder due primarily to enhancements of pension and other postretirement benefits.

PD LLC Operating Agreement

In 2000, Pulitzer and Herald Inc. completed the transfer of their respective interests in the assets and operations of the *St. Louis Post-Dispatch* and certain related businesses to a new joint venture (the Venture), known as PD LLC. Pulitzer is the managing member of PD LLC. Under the terms of the operating agreement governing PD LLC (the Operating Agreement), Pulitzer and another subsidiary hold a 95% interest in the results of operations of PD LLC and Herald holds a 5% interest. Herald's 5% interest is reported as minority interest in the Consolidated Statements of Income and Comprehensive Income. Also, under the terms of the Operating Agreement, Herald Inc. received on May 1, 2000 a cash distribution of \$306,000,000 from PD LLC (the Initial Distribution). This distribution was financed by the Pulitzer Notes. Pulitzer's entry into the Venture was treated as a purchase for accounting purposes.

During the first ten years of its term, PD LLC is restricted from making distributions (except under specified circumstances), capital expenditures and member loan repayments unless it has set aside out of its cash flow a reserve equal to the product of \$15,000,000 and the number of years since May 1, 2000, but not in excess of \$150,000,000 (the Reserve). PD LLC is not required to maintain the Reserve after May 1, 2010. On May 1, 2010, Herald will have a one-time right to require PD LLC to redeem Herald's interest in PD LLC, together with Herald's interest, if any, in DS LLC, another limited liability company in which Pulitzer is the managing member and which is engaged in the business of delivering publications and products in the greater St. Louis metropolitan area. The May 1, 2010 redemption price for Herald's interest will be determined pursuant to a formula yielding an amount which will result in the present value to May 1, 2000 of the after tax cash flows to Herald (based on certain assumptions) from PD LLC, including the Initial Distribution and the special distribution described below, if any, and from DS LLC, being equal to \$275,000,000.

In the event the transactions effectuated in connection with either the formation of the Venture and the Initial Distribution or the organization of DS LLC are recharacterized by the Internal Revenue Service (IRS) as a taxable sale by Herald, with the result in either case that the tax basis of PD LLC's assets increases and Herald is required to recognize taxable income as a result of such recharacterization, Herald generally will be entitled to receive a special distribution from PD LLC in an amount that corresponds, approximately, to the present value of the after tax benefit to the members of PD LLC of the tax basis increase. The adverse financial effect of any such special distribution to Herald on PD LLC (and thus Pulitzer and the Company) will be partially offset by the current and deferred tax benefits arising as a consequence of the treatment of the transactions effectuated in connection with the formation of the Venture and the Initial Distribution or the organization of DS LLC as a taxable sale by Herald. In 2005, the Company was advised that the IRS, in the course of examining the 2000 consolidated federal income tax return in which Herald Inc. was included, requested certain information and documents relating to the transactions effectuated in connection with the formation of the Venture and the Initial Distribution. The Company participated in the formulation of Herald Inc.'s response to this IRS request for information and documents. In 2006, the IRS concluded its examination without adjustment related to the Venture or the Initial Distribution and the Company considers the matter closed. The related statute of limitations expires in December 2007.

Upon termination of PD LLC and DS LLC, which will be on May 1, 2015 (unless Herald exercises the redemption right described above), Herald will be entitled to the liquidating value of its interests in PD LLC and DS LLC, to be paid in cash by Pulitzer. That amount would be equal to the amount of Herald's capital accounts, after allocating the gain or loss that would result from a cash sale of PD LLC and DS LLC's assets for their fair market value at that time. Herald's share of such gain or loss generally will be 5%, but will be reduced (but not below 1%) to the extent that the present value to May 1, 2000 of the after tax cash flows to Herald from PD LLC and from DS LLC, including the Initial Distribution, the special distribution described above, if any, and the liquidation amount (based on certain assumptions), exceeds \$325,000,000.

The actual amount payable to Herald either on May 1, 2010, or upon the termination of PD LLC and DS LLC on May 1, 2015 will depend on such variables as future cash flows, the amounts of any distributions to Herald prior to such payment, PD LLC's and DS LLC's rate of growth and market valuations of newspaper properties. While the amount of such payment cannot be predicted with certainty, the Company currently estimates (assuming a 5% annual growth rate in Herald's capital accounts, no special distribution as described above and consistent newspaper property valuation multiples) that the amount of such payment would not exceed \$100,000,000. The Company further believes that it will be able to finance such payment either from available cash reserves or by accessing the capital markets. The redemption of Herald's interest in PD LLC either on May 1, 2010 or upon termination of PD LLC in 2015 is expected to generate significant tax benefits to the Company as a consequence of the resulting increase in the tax basis of the assets owned by PD LLC and DS LLC and the related depreciation and amortization deductions.

Income Taxes

The Company files income tax returns with the IRS and various state tax jurisdictions. From time to time, the Company is subject to routine audits by those agencies, and those audits may result in proposed adjustments. The primary issues in audits currently in process or being contested relate to the appropriate determination of gains, and allocation to the various taxing authorities thereof, on businesses sold in 2001. The Company may also be subject to claims for transferring income tax liability related to businesses acquired in 2000. The Company has considered the alternative interpretations that may be assumed by the various taxing agencies, believes its positions taken regarding its filings are valid, and that adequate tax liabilities have been recorded to resolve such matters. However, the actual outcome cannot be determined with certainty and the difference could be material, either positively or negatively, to the Consolidated Statements of Income and Comprehensive Income in the periods in which such matters are ultimately determined. The Company does not believe the final resolution of such matters will be material to its consolidated financial position.

In June 2006, the Company received a notice of deficiency asserting transferee liability for federal income taxes and penalties, excluding interest, totaling \$25,200,000 related to the acquisition of assets by the Company in 2000. In August 2006, the IRS rescinded the notice of deficiency and issued a letter which allowed the Company to initially pursue this matter at the IRS Appeals level. In February 2007, the IRS informed the Company that it does not intend to pursue the claim. The related statute of limitations expires in December 2007.

Litigation

The Company is involved in a variety of legal actions that arise in the normal course of business. Insurance coverage mitigates potential loss for certain of these matters. While the Company is unable to predict the ultimate outcome of these legal actions, it is the opinion of management that the disposition of these matters will not have a material adverse effect on the Company's Consolidated Financial Statements, taken as a whole.

12 IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2006, the FASB issued Interpretation 48, *Accounting for Uncertainty in Income Taxes*, which is effective for fiscal years beginning after December 15, 2006. Interpretation 48 clarifies the accounting for uncertainty in income taxes recognized in the financial statements in accordance with FASB Statement 109. Interpretation 48 prescribes a comprehensive model for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the Company has taken or expects to take on a tax return. The Company has not completed its evaluation of the effects of Interpretation 48 on its Consolidated Financial Statements.

In September 2006, the FASB issued Statement 157, *Fair Value Measurements*, which defines fair value, provides guidelines for measuring fair value and expands disclosure requirements. Statement 157 does not require any new fair value measurement but applies to the accounting pronouncements that require or permit fair value measurement. Statement 157 is effective for fiscal years beginning after November 15, 2007. The Company does not anticipate that the implementation of Statement 157 will have a material impact on its financial position, results of operation, or cash flows.

In September 2006, the FASB issued Statement 158, *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans*, which amends Statements 87, 88, 106 and 132(R). Statement 158 requires the recognition of the over-funded or under-funded status of a defined benefit postretirement plan as an asset or liability in its balance sheet and recognition of changes in that funded status in the year in which the changes occur as a component of comprehensive income. Statement 158 is effective at the end of 2007. Had Statement 158 been adopted at September 30, 2006, the Company's assets would have increased and liabilities would have decreased in the aggregate amount of \$44,191,000, less the related income tax effect, and stockholders' equity would have increased by \$44,191,000, less the related income tax effect. Actual adjustments have not been determined as the related actuarial computations have not been performed.

Statement 158 will also require the Company to change its measurement date from June 30 to September 30, beginning in 2008. The change in measurement date will require a one-time adjustment to retained earnings, the effect of which cannot be determined at this time. None of the changes required will impact the Company's results of operations or cash flows.

[Table of Contents](#)

In February 2007, the FASB issued Statement 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which provides the Company the option to measure many financial instruments and certain other items at fair value that are not currently required or permitted to be measured at fair value. Statement 159 is effective as of the beginning of a company's first fiscal year after November 15, 2007. The Company has not completed its evaluation on the effect of Statement 159 on its Consolidated Financial Statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion includes comments and analysis relating to the Company's results of operations and financial condition as of and for the three months and six months ended March 31, 2007. This discussion should be read in conjunction with the Consolidated Financial Statements and related Notes thereto and the Company's 2006 Annual Report on Form 10-K.

NON-GAAP FINANCIAL MEASURES

Operating Cash Flow and Operating Cash Flow Margin

Operating cash flow, which is defined as operating income before depreciation, amortization, and equity in earnings of associated companies, and operating cash flow margin (operating cash flow divided by operating revenue) represent non-GAAP financial measures that are used in the analysis below. The Company believes that operating cash flow and the related margin percentage are useful measures of evaluating its financial performance because of their focus on the Company's results from operations before depreciation, amortization and earnings of equity investments. The Company also believes that these measures are several of the alternative financial measures of performance used by investors, lenders, rating agencies and financial analysts to estimate the value of a company and evaluate its ability to meet debt service requirements.

A reconciliation of operating cash flow and operating cash flow margin to operating income, the most directly comparable measure under accounting principles generally accepted in the United States of America (GAAP), is included in the table below:

<i>(Thousands)</i>	Three Months Ended March 31, 2007	Percent of Revenue	Three Months Ended March 31, 2006	Percent of Revenue
Operating cash flow	\$58,392	22.3%	\$60,312	22.7%
Depreciation and amortization	23,750	9.1	21,929	8.2

Operating income	\$39,947	15.3%	\$43,400	16.3%

<i>(Thousands)</i>	Six Months Ended March 31, 2007	Percent of Revenue	Six Months Ended March 31, 2006	Percent of Revenue
Operating cash flow	\$139,323	24.8%	\$132,265	23.7%
Depreciation and amortization	47,178	8.4	43,810	7.8
Equity in earnings of associated companies	11,810	2.1	11,320	2.0
Operating income	\$103,955	18.5%	\$ 99,775	17.9%

Adjusted Income From Continuing Operations and Adjusted Earnings Per Common Share

Adjusted income from continuing operations and adjusted earnings per common share, which are defined as income from continuing operations and earnings per common share adjusted to exclude matters of a substantially non-recurring nature, represent non-GAAP financial measures that are used in the analysis below. The Company believes the use of adjusted income from continuing operations and adjusted earnings per common share provide meaningful supplemental information to investors and financial analysts with which to evaluate its financial performance by excluding matters that may not be indicative of its core business operating results and are of a substantially non-recurring nature. The Company also believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing the Company's performance and in forecasting and analyzing future periods that are not likely to include the adjusted items. References to these non-GAAP measures should not, however, be considered a substitute for income from continuing operations and earnings per common share presented in accordance with GAAP.

[Table of Contents](#)

Reconciliations of adjusted income from continuing operations and adjusted earnings per common share to income from continuing operations and earnings per common share, respectively, the most directly comparable measures under GAAP, are set forth below under the caption "Overall Results".

SAME PROPERTY COMPARISONS

Certain information below, as noted, is presented on a same property basis, which is exclusive of acquisitions and divestitures consummated in the current or prior year. The Company believes such comparisons provide meaningful information for an understanding of changes in its revenue and operating expenses. Same property comparisons exclude TNI and MNI. The Company owns 50% of TNI and also owns 50% of the capital stock of MNI, both of which are reported using the equity method of accounting. Same property comparisons also exclude corporate office costs.

CRITICAL ACCOUNTING POLICIES

The Company's discussion and analysis of its results of operations and financial condition are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to intangible assets and income taxes. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company's critical accounting policies include the following:

- Goodwill and other intangible assets
- Pension, postretirement and postemployment benefit plans
- Income taxes
- Revenue recognition
- Uninsured risks

Additional information regarding these critical accounting policies can be found under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations" the Company's 2006 Annual Report on Form 10-K and the Notes to Consolidated Financial Statements, included herein.

would have increased by \$44,191,000, less the related income tax effect. Actual adjustments have not been determined as the related actuarial computations have not been performed.

Statement 158 will also require the Company to change its measurement date from June 30 to September 30, beginning in 2008. The change in measurement date will require a one-time adjustment to retained earnings, the effect of which cannot be determined at this time. None of the changes required will impact the Company's results of operations or cash flows.

In February 2007, the FASB issued Statement 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which provides the Company the option to measure many financial instruments and certain other items at fair value that are not currently required or permitted to be measured at fair value. Statement 159 is effective as of the beginning of a company's first fiscal year after November 15, 2007. The Company has not completed its evaluation on the effect of Statement 159 on its Consolidated Financial Statements.

EXECUTIVE OVERVIEW

The Company directly, and through its ownership of associated companies, publishes 56 daily newspapers in 23 states and more than 300 weekly, classified and specialty publications, along with associated and integrated online services. The Company was founded in 1890, incorporated in 1950, and listed on the New York Stock Exchange in 1978. Before 2001, the Company also operated a number of network-affiliated and satellite television stations.

In April 2002, the Company acquired ownership of 15 daily newspapers and a 50% interest in the Sioux City, Iowa daily newspaper (SCN) by purchasing Howard Publications, Inc. (Howard). This acquisition was consistent with the strategy the Company announced in 2000 to buy daily newspapers with circulation of 30,000 or more. In July 2002, the Company acquired the remaining 50% of SCN. These acquisitions increased the Company's circulation by more than 75% and increased its revenue by nearly 50%. In February 2004, two daily newspapers acquired in the Howard acquisition were exchanged for two daily newspapers in Burley, Idaho and Elko, Nevada.

In June 2005, the Company acquired Pulitzer. Pulitzer published 14 daily newspapers, including the *St. Louis Post-Dispatch*, and more than 100 weekly newspapers and specialty publications. Pulitzer also owns a 50% interest in TNI. The acquisition of Pulitzer increased the Company's circulation by more than 50% to almost 1.7 million daily and more than 1.9 million Sunday, and revenue, on an annualized basis, by more than 60%. In 2006, the Company sold the assets of *The Daily News* in Rhinelander, Wisconsin, the smallest of these newspapers.

In 2006, the Company sold the assets of its publishing and commercial printing operations in Seattle and Spokane, Washington and Portland, Oregon.

The Company is focused on six key strategic priorities. They are to:

- Grow revenue creatively and rapidly;
- Emphasize strong local news;
- Accelerate online innovation;
- Increase circulation, readership and online audience;
- Nurture employee development and achievement; and
- Exercise careful cost control.

Certain aspects of these priorities are discussed below.

More than 75% of the Company's revenue is derived from advertising. The Company's strategies are to increase its share of local advertising through increased sales pressure in its existing markets and, over time, to increase readership and circulation unit sales through internal expansion into existing and contiguous markets and enhancement of online offerings, augmented by selective acquisitions. Acquisition efforts are focused on newspapers with daily circulation of 30,000 or more, as noted above, and other publications and online businesses that increase the Company's operating revenue.

Decreases in advertising and total revenue in the three months ended March 31, 2007 more than offset decreases in operating expenses (including depreciation and amortization) and resulted in lower operating cash flow, operating income and income from continuing operations. Increases in advertising and total revenue and flat operating expenses resulted

in growth in operating cash flow, operating income and income from continuing operations during the six month period ended March 31, 2007. Unusual costs in the prior year and unusual cost reductions in the current year impacted results.

INFLATION

The Company has not been significantly impacted by general inflationary pressures over the last several years. The Company anticipates that changing costs of newsprint, its basic raw material, may impact future operating costs. Price increases (or decreases) for the Company's products are implemented when deemed appropriate by management. The Company continuously evaluates price increases, productivity improvements, sourcing efficiencies and other cost reductions to mitigate the impact of inflation.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk stemming from changes in interest rates and commodity prices. Changes in these factors could cause fluctuations in earnings and cash flows. In the normal course of business, exposure to certain of these market risks is managed as described below.

INTEREST RATES

Restricted Cash and Investments

Interest rate risk in the Company's restricted cash and investments is managed by investing only in securities with maturities no later than May 2010, after which time all restrictions on such funds lapse. Only U.S. Government and related securities are permitted.

Debt

The Company's debt structure and interest rate risk are managed through the use of fixed and floating rate debt. The Company's primary exposure is to the London Interbank Offered Rate (LIBOR). A 100 basis point increase to LIBOR would decrease income from continuing operations before income taxes on an annualized basis by approximately \$8,074,000, based on \$807,375,000 of floating rate debt outstanding at March 31, 2007, after consideration of the interest rate swaps described below, and excluding debt of MNI. Such interest rates may also decrease.

In 2005, the Company executed interest rate swaps in the notional amount of \$350,000,000 with a forward starting date of November 30, 2005. The interest rate swaps have terms of two to five years, carry interest rates from 4.2% to 4.4% (plus the applicable LIBOR margin) and effectively fix the Company's interest rate on debt in the amounts, and for the time periods, of such instruments. Certain of the Company's interest-earning assets, including those in employee benefit plans, also function as a natural hedge against fluctuations in interest rates on debt.

At March 31, 2007, after consideration of the interest rate swaps described above, approximately 55% of the principal amount of the Company's debt is subject to floating interest rates.

COMMODITIES

Certain materials used by the Company are exposed to commodity price changes. The Company manages this risk through instruments such as purchase orders and non-cancelable supply contracts. The Company is also involved in continuing programs to mitigate the impact of cost increases through identification of sourcing and operating efficiencies. Primary commodity price exposures are newsprint and, to a lesser extent, ink and energy costs. Newsprint prices have recently begun to decline, after rising for more than four years.

A \$10 per metric ton newsprint price increase would result in an annualized reduction in income before income taxes of approximately \$1,730,000 based on anticipated consumption in 2007, excluding consumption of MNI and TNI. Such prices may also decrease.

In January 2007, Abitibi-Consolidated Inc. and Bowater Inc. announced a merger of the two companies. The merger would significantly increase the market share of the combined company from that of the individual companies and is expected to create substantial operating efficiencies. The Company acquires newsprint and specialty paper products from both Abitibi-Consolidated Inc and Bowater Inc. At the present time, the impact on pricing of products sold to the Company as a result of the merger cannot be determined.

SENSITIVITY TO CHANGES IN VALUE

The estimate that follows is intended to measure the maximum potential impact on fair value of fixed rate debt of the Company in one year from adverse changes in market interest rates under normal market conditions. The calculation is not intended to represent the actual loss in fair value that the Company expects to incur. The estimate does not consider favorable changes in market rates. The position included in the calculation is fixed rate debt, the principal amount of which totals \$306,000,000 at March 31, 2007.

The estimated maximum potential one-year loss in fair value from a 100 basis point movement in interest rates on market risk sensitive investment instruments outstanding at March 31, 2007 is approximately \$6,021,000. There is no impact on reported results or financial condition from such changes in interest rates.

Changes in the fair value of interest rate swaps from movements in interest rates are not determinable, due to the number of variables involved in the pricing of such instruments. However, increases in interest rates would generally result in increases in the fair value of such instruments.

Item 4. Controls and Procedures

In order to ensure that the information that must be disclosed in filings with the Securities and Exchange Commission is recorded, processed, summarized and reported in a timely manner, the Company has disclosure controls and procedures in place. The chief executive officer, Mary E. Junck, and chief financial officer, Carl G. Schmidt, have reviewed and evaluated the disclosure controls and procedures as of March 31, 2007, and have concluded that such controls and procedures are effective.

There have been no changes in internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, such controls during the three months ended March 31, 2007.

PART II OTHER INFORMATION**Item 2(c). Issuer Purchases of Equity Securities**

During the three months ended March 31, 2007, the Company purchased shares of Common Stock, as noted in the table below, in transactions with participants in its 1990 Long-Term Incentive Plan. The transactions resulted from the withholding of shares to pay the exercise price and/or taxes related to the exercise of stock options. The Company is not currently engaged in share repurchases related to a publicly announced plan or program.

Month	Shares Purchased	Average Price Per Share
January	2,859	\$30.66

Item 4. Submission of Matters to a Vote of Security Holders

Votes were cast for nominees for director as follows:
